Student Union
Theater

I will always fondly remember the Class of 1974 as the first class to enter and graduate during my presidency. In September of 1972, I compared you with myself indicating we were both freshmen. Now the Class of 1974 has completed two years at Canton; they have become seniors and are graduating and will leave to enter new endeavors.

During your short stay at ATC, I have come to know many in the Class. I've watched you progress, enter and succeed in campus activities and begin to establish yourselves individually as independent members of society.

To everyone I offer my congratulations and the wish that each new venture in your life is a successful one.

Earl W. MacArthur,
President

comment

The problem with the AP contract has been resolved and we can once again give you a summary of World events.

I was a little disturbed at the lack of letters to the editor last week.I feel that the paper should be a vehicle for student expression, feel free to write about your gripes maybe your gripe can be corrected.

IS CA IGNORING THE STUDENTS?

Last week at a special College Association meeting president Roger Cooney brought up the idea of making an additional allocation to purchase tapestries for the cafeteria. The student board unanimously voted down this allocation and said it would be a FOOLISH expenditure.

On March 12, while attending a SASU conference in Albany, Roger received a call from Mr. Hazeltine. Mr. Hazeltine informed Roger that he could buy the tapestries, because there was money in another account. I agree with the people of this corporation that what they did is legal. What I question is, are they listening to the Student Board?

The Student Board unanimously felt that this purchase was foolish and yet Mr. Goolden said to go ahead with buying them. If the executive director is going to run the organization on the way he feels, is there any need for a Student Board?

I hope at the meeting today the Student Board stands up for their rights. Sending the tapestries back would stop the use of students as stepping stones.

Streaking

One night last week a few young men decided to establish streaking at Canton. They quickly covered the distance from Heritage Hall to Smith Hall. (I imagine they must of set a track record.) One afternoon last week a masked streaker showed his talent as he ran by the bookstore and pub.

If campus can have streaking so can the apartments. Some streakers raced around the second floor dragging strips of toilet paper behind them. Not to be outdone one streaker climbed into a shopping cart and a second streaker pushed him around the center of the apartments. The next afternoon another streaker raced down the sidewalk.

Time Magazine has a few records already established. Let's see if Canton can't break one. The longest streak was 5 hours at Texas Tech. The largest streak at the University of Georgia, 1543 streakers. Believe it or not, in Canada a few streakers bared themselves to -4°F. weather.

It was a tie for streak of the week according to Time magazine. Mark Nunes streaked into a Michigan house of representatives tying him with two others who raced in the front entrance of a police stations and out the back. Come Canton streakers, what can you do.
